Good Data Practices Cyberseminars

Join field researchers as they discuss how interactions between research design and data decisions influenced data planning, management, and analysis in their studies. Intended for investigators, statisticians, programmers and analysts who are new to research or starting new projects.

February 14, 2017 | 1 PM Eastern

Incorporating Genomics in Routine Care for Veterans with Colon Cancer: Study Design and Data Decisions
Sara Knight, PhD
Describes data decisions in a mixed method study to investigate the integration of genomic information into colorectal cancer care at the VA.

February 16, 2017 | 1 PM Eastern

Data Use and Data Decisions in a Mixed Methods Study about Hand Hygiene
Heather Reisinger, PhD
Examines how qualitative/ethnographic data led to a better understanding of the role of hand hygiene interventions and a clinical trial to assess their efficacy.

February 21, 2017 | 1 PM Eastern

Data Decisions and Quantitative Analysis in a Study Investigating the Impact of Remote ICU Monitoring in VA Hospitals
Mary Vaughan-Sarrazin, PhD, and Amy O‘Shea, PhD
Discusses design decisions and data management issues in a study that evaluated the impact of remote ICU telemedicine on patient outcomes and care.

Capstone Discussion: The Influence of Research Design on Data Decisions (all presenters)
Moderated by Neil Jordan, PhD
Dr. Jordan and presenters reflect on the interplay between research questions and data decisions in health services research.
